

# INSTRUCTIONS FOR CLEANING FLOOR WITH ORS-SORB ORIGINAL ® AND ORS-SORB SPECIAL ®

ORS-SORB ORIGINAL® for all oils

ORS-SORB SPECIAL ® for all liquids, including oil, paint, glycol, chemicals etc.

1

Pour ORS-Sorb as near the floor as possible.

2

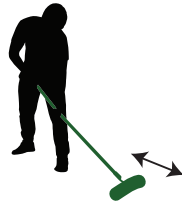

Do not pour from the distance, ORS-Sorb is light and can spread in windy conditions.

3

Use ORS-Sorb in ratio 1 liter of ORS-Sorb to clean 9dl of liquid/oil. Absorption is immediate.

4

Spread ORS-Sorb gently to cover all liquid.  
Use spatula or brush in the spreading.  
Do not press.

5

Clean the waste with brush/spatula and shovel  
and place into the oil collection waste or similar.

6

Use a thin layer of ORS-Sorb to finalise the result.  
Spread on the floor and clean as before.  
This time you can brush ORS-Sorb strongly  
against the floor to make it completely clean

7

Close ORS-Sorb bag with the zipper to avoid any  
contact with air.
